SUMMARY

Iam a Mechatronics Engineer from Mansoura University, specializing in AI, machine learning, and deep learning, I have gained valuable experience through my participation in various technical events and practical training. These experiences have significantly enhanced my skills, allowing me to apply theoretical concepts to real-world projects and practical challenges

EXPERIENCE

Machine Learning Engineer   04/2024 - Present
Digital Egypt Pioneers Initiative - DEPI

Machine Learning and AI Trainee Participated in a comprehensive program focused on machine learning and artificial intelligence. Worked on projects involving data analysis, algorithm development, and AI implementation. Acquired skills in remote learning technologies and advanced AI techniques.

Intern   07/2024 - 08/2024
Mīt Ghamr Water Station

SCADA Systems Specialist Trainee Specialized in SCADA systems, focusing on real-time monitoring and control of water treatment processes. Developed skills in configuring and managing SCADA software and hardware. Participated in system maintenance and performance evaluation.

Intro to machine learning & AI   02/2023 - 03/2024
Mansoura University - Digital Training Center (DTC)

Intern   06/2023 - 08/2023
The Arab Contractors

Gained hands-on experience in the design, installation, and maintenance of electromechanical systems. Assisted in troubleshooting and optimizing system performance

EDUCATION

Mechatronics Engineering   2020 - 2025
Mansoura University

CERTIFICATES

ICDL

SOLIDWORKS CSWA
Hackathon

MATLAB
Hackathon

Machine Learning
Digital Training Center (DTC)

Embedded system
UCCD

SKILLS

....

Mechanical design	Controlling system (PLC)
AI	MATLAB
Python	Embedded system
Micro contrllers	Machine learning

LANGUAGES

....

Arabic	Native	English	Fluent
